

Be Careful

Dolores O'Riordan

I thought that he was insecure
But I don't think so anymore
Think about what you're living for
Now that you've opened up that door

Be careful what you're wishing
Be careful what you're wishing
Be careful what you're wishing for

You might scream
You might shout
Trying to suss it out
Sinking low

You might scream
You might shout
Trying to suss it out
Sinking low

For, the dictator, be careful what you're living for
Alcohol & cocaine, I think it's driving you insane

Be careful what you're wishing for (3x)
Now that you've opened up that door (3x)

You might scream
You might shout
Trying to suss it out
Sinking low

You might scream
You might shout

You might scream
You might shout
Trying to suss it out
Sinking low.
