

It's You

Dolores O'Riordan

It's you
It's you
It's you

You Know you make me feel better
And I knew
I Knew
I knew
When I was under the weather

Where did it all the time go?
Where did it all the time go?
It's you
It's you
It's you

You Know you make me feel better
I remembered the time when we were small
Planting seeds, put it in ?quants?
I remembered the time when we were small
We did it all
But tell me Where did it all the time go?
Where did it all the time go?
It's you
It's you
It's you
You Know you make me feel better

It's you
It's you
It's you
You Know you make me feel better
And I knew
I Knew
I knew
When I was under the weather

Where did it all the time go?
Where did it all the time go?
It's you
It's you
It's you
You Know you make me feel better
I remembered driving in that car
Our destiny was never far
I must have lost ten thousand times
But We There
But tell me Where did it all the time go?
Where did it all the time go?
It's you
It's you
It's you
You Know you make me feel better

I could not wait until I grown
I could not wait until I grown
I could not wait until I grown

I could not wait until I grown

I could not wait until I knew
I could not wait until I knew
I could not wait until I knew
I could not wait until I knew

I would love to go but that car
Where Our destiny was never far
I would love to go but that car
But I can't
And come to me today that made me
I wish those things away
Still It's you
It's you
It's you
You Know you make me feel better
Whatever you do
Don't wish your days away
Whatever you do
Take it easy today
Take it easy today
