Stay With Me

Dolores O'Riordan

I woke up this morning And I walked down to the sea I sat there on the long grass Just staring at the sea

Counting all my blessing And everything that you gave to me Why is this complicated? Why can't you stay with me?

Stay with me Won't you stay Stay with me Won't you stay with me Stay with me

I just like to hold on To all the magic memories I dread this place without you Don't leave I'm begging please

Holding back the memories Holding back the year Holding back the memories Holding back the tears

Stay with me Won't you stay Stay with me Won't you stay with me Stay with me
