

Switch Off The Moment

Dolores O'Riordan

Some mental anguish in my head, wake me up I am not dead
Ignite a fire in my soul, a passing moment

Accumulating in my mind, are the thoughts I left behind
Accumulating in my head, switch off the moment

I ask you now please, will you catch me when I fall
I ask you now please, will you be there when I call

I ask you now please, will you catch me when I fall
Or are you there at all

Accumulating in my mind, are the thoughts I left behind
Accumulating in my head, switch off the moment

I ask you now please, will you catch me when I fall
I ask you now please, will you be there when I call

I'm begging on my knees, will you catch me when I fall
I'm begging now please, will you be there when I fall

Falling apart, I feel I'm falling away
I feel I'm falling apart, wake up

Show me the sun, show me the sun
I can't see the sun, I can't see the sun

Show me the sun, show me the sun
I can't see the sun, I can't see the sun

Borderline, personality
Borderline, borderline, personality
