

## Switch Off The Moment

Dolores O'Riordan

Some mental anguish in my head, wake me up I am not dead  
Ignite a fire in my soul, a passing moment

Accumulating in my mind, are the thoughts I left behind  
Accumulating in my head, switch off the moment

I ask you now please, will you catch me when I fall  
I ask you now please, will you be there when I call

I ask you now please, will you catch me when I fall  
Or are you there at all

Accumulating in my mind, are the thoughts I left behind  
Accumulating in my head, switch off the moment

I ask you now please, will you catch me when I fall  
I ask you now please, will you be there when I call

I'm begging on my knees, will you catch me when I fall  
I'm begging now please, will you be there when I fall

Falling apart, I feel I'm falling away  
I feel I'm falling apart, wake up

Show me the sun, show me the sun  
I can't see the sun, I can't see the sun

Show me the sun, show me the sun  
I can't see the sun, I can't see the sun

Borderline, personality  
Borderline, borderline, personality
