

Willow Pattern

Dolores O'Riordan

Dreaming of the willow pattern
A phase I'm going through
Dreaming of the willow pattern
There's something I should do

I'd never see the world without you
You opened up my eyes
I'd never see the world without you
And now I realise

Never turn around
Never transit / chance it
Never play dead
Don't ever walk backwards
Never turn around
Never transit / chance it
Never play dead
Don't ever walk backwards

You should never take a thing for granted
You only miss it when it's gone
And it's stupid to be holding grudges
Because we only got so long

So long (7x)

I'm dreaming of the willow pattern
She kept it in her room
An oriental china set
A gift I would assume

She told me how you loved her so much
That everybody died
Another universal theme
Don't hold it all inside

Never turn around
Never transit / chance it
Never play dead
Don't ever walk backwards
Never turn around
Never transit / chance it
Never play dead
Don't ever walk backwards

You should never take a thing for granted
You only miss it when it's gone
And it's stupid to be holding grudges
Because we only got so long

So long (7x)

I affiliate with you (6x)
I know we'd all have died

Never turn around
Never transit / chance it

Never play dead
Don't ever walk backwards
Never turn around
Never transit / chance it
Never play dead
Don't ever walk backwards

You should never take a thing for granted
You only miss it when it's gone
And it's stupid to be holding grudges
Because we only got so long

Laaauuh...
