

The Ways

Dom Kennedy

You know you can't stress about this here

Yeah, she like 5"2

She got her hair done too

You don't think I'll give it to her

Nigga, that's so untrue

I got a room full of space

I got drugs you can take

I'm a give it to you good girl, in so many ways

So many ways

So many ways

So many ways, there more then one way to love a girl

In so many ways

You got so many curves, let me see you work

I wanna watch you shop

Come here let me hold that skirt

Real nigga go first

I ain't scared, I ain't scared

Yeah I heard sex is a weapon, but I ain't dead, I ain't dead

Let your pants fall down

Let your tan line show

I'm in the 323, she from the 504

She wanna back it up for me, I told her back it up for me

Then I pulled out the yea boy, and made her strap it up for me

She fast enough for me, she got ass enough for me

And we can all night, if you can last enough for me

There she go, there she go

I drive her hysterical, eat her like a cherry though

Let me count the ways, the ways, the ways.

So let me feel that girl, I know you feel that girl

When you was mine, I gave you good dick

And you know where it's still at girl

Oooh, say you gotta man, soooo do I give a damn, noooo

And do you got plans, hoooo oooh

Cause summer I'm really finna kill it this summer, these other niggas, finna be bumner than I!
