C'mon!

Experience XTC, the time is right for me Forget my troubles, leave 'em behind Experience XTC, the time is right for me Follow my spirit, my heart leads the way

Don't need no Ecstasy, these pills don't work with me Don't need no feeder in no chemistry
The only one is me, the only way to be
I'm standing taller than I've ever been

I - I only live for the moment
Tomorrow can wait
I wipe off the dirt all the time

Experience XTC, the time is right for me Forget my troubles, leave 'em behind Experience XTC, the time is right for me I'm not what others just want me to be

It's my life can't you see, my own philosophy I've grown from all of the things I have done Bareepdadeepdadee - live it in dignity Rise up with all of your feelings so strong

I - I only live for the moment
Tomorrow can wait
I wipe off the dirt all the time

C'mon!

Experience XTC, Experience XTC Experience XTC, Experience XTC Experience XTC, Experience XTC

I - I only live for the moment
Tomorrow can wait
I wipe off the dirt all the time
