

## Last Exit Moon

Domain

Every night I feel the ice cold moon upon me  
Trying to control my every thought

I know that this is real - the darkest shade around me  
Lonely is the road - I drive along

A force to cruise at night  
A force that burns my mind  
No one to tame this angry child

Last exit moon - I feel alive  
There ain't no cure for me tonight  
Last exit moon - my soul to hide  
Don't need no cure to tame the night

At night I feel so free - my heart it knows the way to be  
There ain't no stoppin' me - the silvermoon is guiding me

Who needs the sun when the moon shines bright

Always on the run - this fever deep inside  
Steaming up the blood in every vein

Try to hide the sun on my dark and lonely ride  
I can't understand - I can't explain

A force to cruise at night  
A force that burns my mind  
Don't ever try to tame me

Last exit moon - I feel alive  
There ain't no cure for me tonight  
Last exit moon - my soul to hide  
Don't need no cure to tame the night

At night I feel so free - my heart it knows the way to be  
There ain't no stoppin' me - the silvermoon is guiding me

Who needs the sun when the moon shines so bright
