

Talk to the Wind

Domain

Young child thrown in this world
Your hopes higher than the sun
Your heart much too brave for this life
Keep believing you're the only one

Young child thrown in this world
Don't ever think about what's to come
Reach out - don't ever look behind you
With the wind on your skin nothing can't go wrong

Young child talk to the wind
Listen hard to what his whispers will tell you
Young child talk to the wind
It's up to you to where his wings will once lead you

Young child thrown in this world
See the mysteries in everything
Never lose the spirit deep within you
Taking you away on a golden wing

Young child talk to the wind
Listen hard to what his whispers will tell you
Young child talk to the wind
It's up to you to where his wings will once lead you
