

When It Comes to Love

Domain

Here in my heart where it's cold and lonely
Keeping the memory of you
So far apart I wanna have you only

This time no doubt about it
This time - and when it comes to love I let go
This time - and when it comes to love I'll be true

I hold you close and your body's rising
Your eyes control my soul
I pull you near just to feel your heartbeat

I know what to believe in
I know - and when it comes to love I let go
I know oh - and when it comes to love I'll be true

This time my heart leads to you
I won't be afraid when it comes to love
This time I'm burning for you
I won't hesitate when it comes to love

When I'm with you there's peace and freedom
I see the world in your eyes
Just one smile can stop the earth from turning

No more hesitation
No more no - and when it comes to love I let go
No more no - and when it comes to love I'll be true

This time I won't be no fool
I won't look away when it comes to love
This time I'm calling for you
I won't be the same when it comes to love

You're like the air that I breathe - you're every song that I sing
Having you with me I can do anything
Don't wanna tell you forever but it's just how I feel
Baby I'm waiting for much too long

This time my heart leads to you
I won't be afraid when it comes to love
This time I won't be no fool
I won't hesitate when it comes to love

This time I'm calling for you
There's no time to wait when it comes to love
This time I'm falling for you
Don't need words to say when it comes to love
