

## Your Favourite Curse

Domain

Seems so long ago but still it keeps repeatin'  
Long time I've been told that this is never worth believin'  
Now I'm growin' old - my heart still keeps on beatin'  
I will take the pace - no matter how bad I've been treated

I will give my blood - I'm climbin' ever higher  
Stick to my belief - the truth is there to guide me  
Forever and ever and on

Now I'm here - now I'm there  
You can feel me everywhere  
I'm the dream that runs your mind

Now I'm here - now I'm there  
Try to catch me if you dare  
But no matter whatcha do  
I'll be your favourite curse

Speak what you've been told - don't ever care for no one  
'Cause no one ever cared  
No no one ever tried to trust you  
Is this worth living for - is this what you believe in  
Trapped inside this life of begging  
Stealing - lies and cheatin'

Time to take a step - to climb up ever higher  
Hey man it's up to you - follow the stars to guide you  
This new way - your own way - go on

Now I'm here - now I'm there  
You can feel me everywhere  
The little dream inside your mind

Now I'm here - now I'm there  
Try to catch me if you dare  
But no matter whatcha do  
I'll be your favourite curse
