

Electric Dragonfly

Domina Noctis

Scream of joy for my salvation
For my salvation

Electric dragonfly
Emotion swinger fly
As long you're flying high
I love the way you're shining bright
Illuminate my path
And cover me with stardust
Your passion is a light
It's glowing deep inside my eyes
You might be hurt by daylight...

Scream of joy
For my salvation
Silver chime
Of sweet damnation
True illusion
In my mind

Remember when we were free
And running through the green
A thousand lights in my soul
Guiding me among the trees
We'll follow all the signs
The raindrops on the leaves
A bunch of purple petals
Moonlight on my smiling face
You might be hurt by daylight
You have to fight

Scream of joy
For my salvation
Silver chime
Of sweet damnation
True illusion
In my mind

Crystal water, silver sparkles
On your wings (You're calling...)
Crystal water, silver sparkles
On your wings
(You're calling, I'm running to you)

Scream of joy
For my salvation
Silver chime
Of sweet damnation
True illusion
In my mind
