

Into Hades

Domina Noctis

How did we came here Orpheus?
I'm just dreaming
And now I remember
A snake, the bite, it killed me
Why didn't you save me Orpheus?
And why you came here to find me
This is not the place for you
I'm bound to darkness now

Be my guide, this time I
Promise I won't turn back
Don't cry now
We'll start this game again

Please change your mind
As long as you can go back
But are you afraid Orpheus?
I see your flicker in the dark
Surrounded me with your voice
And sing your songs for me
If you take me away from Hades
I will come back to life

Be my guide, this time I
Promise I won't turn back
Don't cry now
We'll start this game again

Together or not
Let's think about this tomorrow
