

Shades Of Dark And Light

Domina Noctis

Lift me up from this grave
I'll take you and heal you
Inspire me with love and death

Suddenly the sea is a tempest
And I see you again
Here I can feel one with the earth
Ancestral circle of life

Sweat and shivers in the darkness
An old emotion is alive again
Lost in your arms in a summer night
I still can feel it in the air

Lift me up from this grave
I'll take you and heal you
Inspire me with love and death
Recive my gift in you

I'm breathing and resting my heart
My daydreams are blinding me out
Fresh air coming from my window
Is taking my mind away

In my empty days
In my lonely flights

Shades of light and dark
Shining with words of silver
The gentle voice of the night
That lulls the sleepers

Don't you see that I'm here for you?

Lift me up from this grave
I'll take you and heal you
Inspire me with love and death
Recive my gift in you
