

# True Leader Of Men

Domine

Long live the Fremmen Warriors!!!

"Hidden away in the desert  
The prophecy is becoming real  
A man will come, the messiah  
Who will lead us to true freedom"

Oh, my time has come  
I'm the one you are waiting for  
I will lead to victory  
The universe super being of planet Dune

I will bring death eternal  
And my name is a killing word

I am the hand of God  
Who will lead you all to true freedom

Oh, my time has come  
I'm the one you are waiting for  
I will take the Water of Life  
The Spice will let the sleeper rise

Long live the fighters, holy warriors  
Follow me now! And we will take control  
Master of the universe, ruler of infinity  
I summon the sand worms, I unite the Freman and

Ride like a leader of men, true leader that ride  
Like a leader of men, true leader of men  
Like a leader of men, true leader that ride  
Like a leader of men, true leader of men

Long live the fighters, holy warriors  
Follow me now! And we will take control  
Master of the universe, ruler of infinity  
I summon the sand worms, I unite the Freman and

Ride like a leader of men, true leader that ride  
Like a leader of men, true leader of men  
Like a leader of men, true leader that ride  
Like a leader of men, true leader of men

I ride like a leader of men
