

## Dreams

Domo Genesis

Now if I see it in my dreams  
Is it for real, somebody tell me what it means  
Sometimes it ain't really what it seems  
Cause this could all really be a dream  
Is it a dream? Is it a dream?  
Am I living what I'm seeing in my sleep?  
Or is my imagination tripping off some weed?  
Is this all the shit I really need?  
In my dream, is this a dream?  
Will my dreams make it past here?  
Or will I always try to do better than last year?  
I'm not afraid of what the future brings  
But this a dream, a vivid dream  
It's in my dreams, I already see it in my dreams
