

Top Of The World

Don Broco

Jammy dodger cleaning up
Take him out, turn it round and now I'm top
I got the skills you want, c'mon!

Oooo I'm really burning now
I'm really finding out what making luck and hard work is all about

I'm top of the world tonight
On top of the world my darling, top of the world
And I am surrounded by clouds and more clouds, yeah

Oooo my fingers crossing tight
I'm playing one more, then just one more, then the odds are on my side
And every single thing I believed in the first verse I don't no more
I got the skills you want, c'mon!

I'm top of the world tonight
On top of the world my darling, top of the world
And I am surrounded by clouds and more clouds, that harbour the thunder and doubt
I'm top of the world

I'll bet to fail, I'll bet to fold, I'll bet on myself to lose
And every single thing I believed in the first place I don't no more
