

Never Love Again

Don Gibson

I've known many loves before I met you but I'll never love again

I could probably know others too but I'll never love again

After knowin' your love I'll never love again I'll never love again

(I've held many girls before I held you) but I'll never love again

(I could probably know others too) but I'll never love again

After knowin' your love I'll never love again I'll never love again
