

Then I'll Be Free

Don Gibson

All I gotta do is forget about you
And find someone who will be true that'll never leave me
Think about something all the time get you far and out off my mind I'll be free
Oh free to do what I wanna do not sit at home and think about you
Oh I can find me someone new then I'll be free
Get your long black shiny hair cause the fun we used to share then I'll be free
All I gotta do is forget your face and never go back to any place I'll be free
Oh free to do what I wanna do...
Oh free to do what I wanna do.
