

## Time Hurts (as Well As It Heals)

Don Gibson

You say that in time I'll forget how I feel  
But time hurts as well as it heals  
You tell me you're sorry, you know how I feel  
But do you tell me, do you know that my love is real?

The hours pass slowly when you love someone still  
And time hurts as well as it heals  
The memories of you, the heartaches and blues  
The dreams that I've planned, I know won't come true

You tell me that time will erase how I feel  
But time hurts as well as it heals
