

## Who Cares

Don Gibson

I walked down this ol' lonely street  
And no one seems to wanna speak  
Oh Who Cares, who cares for me?

All the world seems cold  
The world seems grey  
Nothing seems the same since you went away  
Who cares, who cares for me

Surely happiness can be found  
Surely there's someone for me  
Must I go through life with this hopeless love  
Why can't I be set free?

All I want is you  
All I know is you  
But somehow our love just can't be  
Who cares, who cares for me
