

# Gotta Get Away

Don Johnson

've been working real hard but I'm getting nowhere  
Keep making plans of what can disappear  
Let's tear off these walls and swear they're closing in  
Tired of being told that is no way to win gotta get away

Say, let's tuck in this town if I like it or not  
Take me what I need if I could take what I got  
Life would be fine if I was somebody else  
But I only get out if I can think for myself

'Cause I know what I want and I want it now  
Hanging on heroes just holding me down  
I got a feeling like I'm paralyzed  
Trying to understand I can't stay got to get away

Stop pushing on me 'cause you're pushing too hard  
Don't give me an inch when I need a yard  
Tired of explaining time and again  
Well I talked you like blue but you don't understand

'Cause I know what I want and I want it now  
Hanging on heroes just holding me down  
I got a feeling like I'm paralyzed  
Trying to understand I can't stay got to get away

Hooking myself into sleep  
Now that I've lost in this fight  
How many times do you think  
Have I tossed and I turned the night

Although while I'm dreaming to be free  
When I cross that foreign line  
You'll be aware that  
There is waiting for me got to get away

'Cause I know what I want and I want it now  
Hanging on heroes just holding me down  
I got a feeling like I'm paralyzed trying to understand

'Cause I know what I want and I want it now  
Hanging on heroes just holding me down  
I got a feeling like I'm paralyzed  
Trying to understand I can't stay got to get away

Get away, get away
