

Burn

Don Moen

Burn away my virtues
May there be just you in me

Lord write me into your great story
Lord write me into your great song
Take all I have
It's for your glory
One day all else will be gone

Give me grace to follow
Only you can lead me home

Lord write me into your great story
Lord write me into your great song
Take all I have
It's for your glory
One day all else will be gone
One day all else will be gone

Your name be glorified
Your name be glorified
Your name be glorified
Your name be glorified

Lord write me into your great story
Lord write me into your great song
Take all I have
It's for your glory
One day all else will be gone

Lord write me into your great story
Lord write me into your great song
Take all I have
It's for your glory
One day all else will be gone
One day all else will be gone

Your name be glorified
Your name be glorified
