

Throne Of Praise

Don Moen

Jesus we lift You on our praises
So every eye can see Your face
Your power and grace
Behold You as You really are
Brighter than all the stars of heaven
Our worship is for You alone
We build You this throne of praise

As long as I have breath
I'll find a way to say
That I love You
Everything may change
And the world may pass away
I'll still love You

With every song we sing
Every prayer we pray
We'll build You a throne
Made from the sound of praise

You O Lord deserve
The praise of all the earth
And we worship You
A sacrifice You died
Now great and glorified
And we worship You
