

Circle Driveway

Don Williams

I wish I had a circle driveway
There's too much for me to leave behind
If I only had a circle driveway
I'd just ride around and wave goodbye

I really can't believe she packed my suitcase
I can't believe that both her eyes were dry
The only thing we didn't have together
Is a right now badly needed circle drive

I Wish I had a circle driveway
There's too much for me to leave behind
If I only had a circle driveway
I'd just ride around and wave goodbye

Well I'll slam it in reverse and watch for traffic
'Cause I don't want the kids to see me cry
It's time to head a new direction
So I'll do my best to get it into drive

I Wish I had a circle driveway
There's too much for me to leave behind
If I only had a circle driveway
I'd just ride around and wave goodbye
