

## Come A Little Closer

Don Williams

Now stop that small talk, turn that light off  
It ain't my fault you look so fine  
My hearts achin' and I ain't fakin'  
I don't ask for much of nuthin', I just need a little lovin'

Come on, babe, come a little closer  
Honey, move it over, feels so right  
Pull that shade just a little lower  
Come a little closer, baby, tonight

Now put that phone down, shut that door now  
Let's just think about me and you  
My hearts racin', time is a wastin'  
I don't want much of nothin', a little kiss a little hugin'

Come on, babe, come a little closer  
Honey, move it over, feels so right  
Pull that shade just a little lower  
Come a little closer, baby, tonight

Cut off that late show, turn that lamp low  
Honey, you know how I feel  
My heart's beatin', the night is pleasin'  
I ain't askin' that much of ya, all I want to do is love ya

Come on, babe, come a little closer  
Honey, move it over, feels so right  
Pull that shade just a little lower  
Come a little closer, baby, tonight

Come on, babe, come a little closer  
Honey, move it over, feels so right  
Pull that shade just a little lower  
Come a little closer, baby, tonight
