

Come Early Morning

Don Williams

I been a walkin', walkin' in the moonlight
Trippin' in the starlight, Lord, and I'm feelin' down
Walkin' in the shadows, sneakin' down a side road
Come early mornin' I'll be there on the edge of town

I was a thinkin', thinkin' bout a good thing
Thinkin' bout a sweet gleam, uum, in my honey's eyes
And I was a-sinkin', feelin' kinda lonesome
Come early morning I'll be home at my honey's side

I have drifted up across the mountain
And I have stumbled down the other side
And I've been tempted, tried and troubled
Come early morning I'll be home and satisfied

She give me little lovin'
Give me little sunshine
Make me have a good time, Lord
When I'm feelin' blue
I couldn't refuse her
Well I couldn't misuse her
Come early mornin' I'll be home
With my honeydew

I have drifted up across the mountains
I have stumbled down the other side
I've been tempted, tried and troubled
Come early mornin' I'll be home
And satisfied...
