

Don't You Think It's Time

Don Williams

Don't you think it's time
For us to work it out
Don't you think you know
What it's all about

Don't you think it's sad
Living all alone
So don't you think it's time
For us to get along

We know the songs of all the wrongs
Love that died, nobody tried
But here and now I know what's true
I can't live without you

So don't you think it's time
For us to work it out
Don't you think you know
What it's all about

Don't you think it's sad
Living all alone
So don't you think it's time
For us to get along

Find the page that says we're old
Is love at home or is it cold

So don't you think it's time
For us to work it out
Don't you think you know
What it's all about

Don't you think it's sad
Living all alone
So don't you think it's time
For us to get along
