

# Don't You Think It's Time

Don Williams

Don't you think it's time  
For us to work it out  
Don't you think you know  
What it's all about

Don't you think it's sad  
Living all alone  
So don't you think it's time  
For us to get along

We know the songs of all the wrongs  
Love that died, nobody tried  
But here and now I know what's true  
I can't live without you

So don't you think it's time  
For us to work it out  
Don't you think you know  
What it's all about

Don't you think it's sad  
Living all alone  
So don't you think it's time  
For us to get along

Find the page that says we're old  
Is love at home or is it cold

So don't you think it's time  
For us to work it out  
Don't you think you know  
What it's all about

Don't you think it's sad  
Living all alone  
So don't you think it's time  
For us to get along
