

## Expert At Everything

Don Williams

No one could love me  
The way that you love me  
But is it a matter of time.  
But each time you hold me  
The way that you hold me  
Time never crosses my mind.

We all took chances  
Sometimes too many  
So, I'll take some chances myself.  
'Cause you're an expert at everything  
I never thought of and  
Real good at everything else.

You give me kisses  
For no special reason  
No special reason's enough.  
You never wait till the  
Party's all over  
To show me  
I'm the one you love.

You never do me  
The way that they did me  
'Cause look what you've done  
With what was left  
You're an expert at everything  
I never thought of and  
Real good at everything else.

You give me kisses  
For no speacial reason  
No special reason's enough.  
You never wait till the  
Party's all over  
To show me  
I'm the one you love.

You never do me  
The way that they did me  
'Cause look what you've done  
With what was left  
You're an expert at everything  
I never thought of and  
Real good at everything else.
