

How Did You Do It

Don Williams

You don't seem to be doing all that bad
In fact you look good
You don't seem to be feeling all that sad
Like I thought maybe you would.

How, how did you do it?
How did you let it go?
How, how did you do it?
I need to know.

Now you've got friends to help you when you're sad
There's even someone you've been seeing
Now, I know there's nothing wrong with that
In fact it's a good thing.

How, how did you do it?
How did you let it go?
How, how did you do it?
I need to know.

One last question before you go
If you're really over you and me
How did you get there, I need to know
'Cause that's where I'd like to be.

How, how did you do it?
How did you let it go?
How, how did you do it?
I need to know.

How, how did you do it?
How did you let it go?
How, how did you do it?
I need to know...
