

I Can't Get to You From Here

Don Williams

I'm glad you called me I can still feel your voice
Touch something inside me but I have no choice
But to tell you I'm no longer one of the boys
And I can't get to you from here.

No, I don't think you'd know me if you saw me up close
I've built me a family and I don't like to boast,
But I'm all settled in to what I need the most
And I can't get to you from here.

I can't turn back the years
And get crazy again and have nothing to fear
Easy as it might appear
I can't just turn back and get there from here.

I only bet when I've got all the cards
I don't take on all comers if they come to hard
I'm a daddy and a voter and I go to bed tired
And I can't get to you from here.

I can't turn back the years
And get crazy again and have nothing to fear
Easy as it might appear
I can't just turn back and get there from here.

I only bet when I've got all the cards
I don't take on all comers if they come on too hard
I'm a daddy and a voter and I go to bed tired
And I can't get to you from here.
