

If You Love Me, Won't You Love Me Like You Love Me

Don Williams

If you love me
Won't you love me like you love me?
If you want me
Won't you touch me like you want me?

Oh baby, just hold me tight
I need to know that you mean it tonight
If you love me
Won't you love me like you love me?

The night's still and warm we lie alone in the dark
I light a cigarette watch your silhouette next to me
Not a word is said but a million things go through my head

And I wonder why our love's not like it used to be
Something tells me I'm losing you
But oh baby don't let it be true

If you love me
Won't you love me like you love me?
If you want me
Won't you touch me like you want me?

So I reach out to you, you come to me like you used to
But something's changed it don't feel the same anymore
Oh, show me we're not through oh baby, I'm begging you

If you love me
Won't you love me like you love me?
If you want me
Won't you touch me like you want me?
