## **Mistakes**

## **Don Williams**

People tell me, boy you're crazy Some people say that I'm nuts For trying to get back together with you baby They say that once is enough.

I never should have left you 'Cause now I need you Sometimes it happens that way I come back like a fool who's believing No matter what they might say.

I don't want to hear another word Don't need your well thought out advice Though I thank you all for being kind I can make mistakes, myself just fine.

I've got a good friend Who knows my trouble He thinks I'm wasting my time Go out and have some fun She's not the only one But I can't leave her behind.

So, I don't want to hear another word Don't need your well thought out advice Though I thank you all for being kind I can make mistakes, myself just fine.

I don't want to hear another word Don't need your well thought out advice Though I thank you all for being kind I can make mistakes, myself just fine.

No, I don't want to hear another word Don't need your well thought out advice Though I thank you all for being kind I can make mistakes, myself just fine...
