

# One Good Well

Don Williams

There's a million oil rigs pumping  
That black gold all over the world  
Sheiks and cowboy billionaires  
In limousines loaded with sparkling girls

But money can't buy happiness  
Just listen to the stories they tell  
All you need to really succeed in life  
Is one good well

It takes one good well  
Deep and ever flowing one good well  
To draw from night and day  
Pure and fine, it's yours and mine

And it's always enough  
We've got one good well  
Overflowing with everlasting love

Don't it seem kinda funny?  
How people with a lot of money  
Only hunger for more  
You think they'd learn that money can burn

It's love that keeps the wolf from the door  
Precious love lies deep inside  
Hearts you can't buy and sell when the money's low  
Still we know we got one good well

It takes one good well  
Deep and ever flowing one good well  
To draw from night and day  
Pure and fine, it's yours and mine

And it's always enough  
We've got one good well  
Overflowing with everlasting love  
We've got one good well  
Overflowing with everlasting love
