

Spend Some Time with Me

Don Williams

I realise you got plans of your own
you could never stay wiyh me
No one could be like a love you have known
I understand, you must be free.

Well we are two of kind I know
We've been in love and left behind before
but I beg of you before you go
Spend some ah spend some time with me
Spend some time with me

Now I won't try to tie you down
I'll do no more than hold your hand
But I can smile when your around
I just hope you understand

Don't be afraid of me I tell you why
I won't keep you I won't even try
But until you'd like to say goodbye
Spend some ah spend some time with me
Spend some time with me
