

# The Only Game In Town

Don Williams

The only game in town, the only one I've found  
When you're lookin' at love real close  
You're lookin' at me I'm looking at you  
The only one I know, that never lets me down  
So good to be around, the only game in town

I've been around, had my time  
I've been crazy, been out of my mind  
Than you came along, changed my ways  
You made me stop playin' those games everybody plays

The only game in town, the only one I've found  
When you're lookin' at love real close  
You're lookin' at me I'm looking at you  
The only one I know, that never lets me down  
So good to be around, the only game in town

Then you came along and changed my ways  
You made me stop playin' those games everybody plays

The only game in town, the only one I've found  
When you're lookin' at love real close  
You're lookin' at me I'm looking at you  
The only one I know, that never lets me down  
So good to be around, the only game in town

Well you're the only game in town
