

I wanna be your rush love, I wanna hold you to the stars
The way light shines in the park on a Sunday afternoon
I want you to be big, want you to be gold,
I want you to be, sky

The more things change
The more they shine

Glow, I wanna see you glow
I wanna see your daylight shining all around your
Heart I wanna see you glow, I wanna see your daylight so bright

All around my soul

I wanna see you soar love, oh, I wanna see you fly
Kick of the world in the dark and just dive, just dive

The more things change
The more they shine

Glow, I wanna see you glow
I wanna see your daylight shining all around your
Heart I wanna see you glow, I wanna see your daylight so bright

All around my soul

I'll run this world with you
(glow, I wanna see you glow)
And I'll run this world with you
(glow, I wanna see you glow)
Glow, I wanna see you glow

I wanna see your daylight shining all around your
Heart I wanna see you glow, I wanna see your daylight so bright
All around my glow, I wanna see you glow
I wanna see your daylight shining all around your
Heart I wanna see you glow, I wanna see your daylight so bright
All around my soul
