

Can I Talk 2 You

Dondria

Hey mister
I know a lady shouldn't do this
But your looking kinda good
I want to get witcha
I wanna slip you my number
Wanna get to know you
I wanna let you into
My secret world of fantasies,
You'll have no worries and no cares
It will be only you and me

Hey baby are you ready to go
We don't have to rush
We can take it slow
I wanna make you mine
I need to make you mine
Can I talk to you

Hey mister do you like what you see
Cause I want you to know Me better than I know me.
You just seem like the type of guy that
Knows how to drive me wild mentally And physically
I'm not the type that would hold back
And you don't know how to act
When I come around you
But baby it's all up to you.

Baby can we take some time
To get to know each other
No time to wait it's now or never
Just give me you and don't be shy
So tell me what you want to do
Baby it's all up to you

Hey baby are you ready to go
We don't have to rush
We can take it slow
I wanna make you mine
I need to make you mine
Can I talk to you.
