When were together and the mood is just  
Right it's like I'm losin my mind it makes me  
Wanna stop time so we can enjoy this  
Moment all night now I'm in love with you  
And everythin you do and everything you  
Are from the way you smile yo swagg the way you walk  
That's enough to make me take you home and show you a good time  
Let's watch a movie take a shower relax and unwind

Let's go nobody has to kno what we do when  
We do how we do our thang  
Just do it nice and slow  
And make me lose control  
Cause I've been feenin for you  
To come have your way

Baby don't keep me waitin I'm  
Inticipating this night with you
