Dondria

I can't take this anymore
I can't take this anymore
I tried your way baby, I tried your way baby
But it just ain't workin out for me, it just ain't workin out f
or me

So many times you said that you would change (so many times you
said it and I believed you)
But just when I think you had, you go back to the same old game
s
I wish I never gave you a second chance
Cause I was just wasting my time, cause you don't know how to b
e a real true man

I told you I was lonely, told you what I needed
But you ain't wanna hear it,
So, I had to do what was best for me and that's, let you and yo
ur triflin' self go
I told you what I wanted, and everything you had to do to make
the situation go good
But obviously you wasn't listenin' or maybe I asked you to do w
ay more than you could

You constantly callin me tryin' to get back
But what's crazy to me, is when you had me, you ain't know how
to act
Got all the right things to say now
But you're a day late, and a dollar or two short
Should've thought about that when I was around

I told you I was lonely, told you what I needed
But you ain't wanna hear it,
So, I had to do what was best for me and that's, let you and yo
ur triflin' self go
I told you what I wanted, and everything you had to do to make
the situation go good
But obviously you wasn't listenin' or maybe I asked you to do w
ay more than you could

I can't take this anymore
I can't take this anymore
I tried your way baby, I tried your way baby
But it just ain't workin out for me, it just ain't workin out f
or me
