

# Don't Cry

Donell Jones

Don't Cry  
Dry your eyes  
I wanna be by your side  
Whenever you need me (Don't Cry)

It's really hurting me the way you feel  
Cause I wanna see you happy  
And when you feel the need to call on me  
I'll be by your side  
You'll never have to cry

Let me be the one  
To make the pain fade away  
Cause I know you're hurting inside  
You need someone that you can trust  
And I'll be by your side  
You'll never have to cry

You'll never have to cry no more  
I'll be right by your side  
When you need someone to give you love  
Don't have to worry anymore  
Cause I'll keep you satisfied
