

It's Alright

Donell Jones

Let the telephone ring
It's about to get physical
It's just you and me on a late night creep
Plan on making ou moan
But first let's get the mood right
I got the '76 Don Perignon
And a dime bag of smoke so let's get it on

It's OK, it's alright
We're gonna do it tonight
Don't you worry 'bout a thing
It's OK, it's alright
We're gonna do it tonight

Get the bath water ready
It's about to get kinky
I imagine that body so soft
I won't know 'til you take your clothes off
Don't you be afraid
I wanna be you sex slave
Give you some lovin', kissin', and huggin'
You won't akd for nothin'

Whatever we do ain't leavin' here
I got a million ways to love you
I'll be gentle so there's no need to fear
So come over here
I've been waiting for this for so long
Seems like I can't hold back this feeling
I'm on a mission to make you moan
So come, come on, come on
