

# Natural Thang

Donell Jones

It's not a natural thang if we can't do it  
Come on and let's get to it tonight  
The feeling's oh so right  
It's not a natural thang if we can't do it  
Come on and let's get to it tonight  
The feeling's oh so right

You know that I want your love tonight  
'Cause the feeling's oh so right  
So take off your coat and settle down  
'Cause the time is now to move around

Every little fantasy  
Girl, you got it with me  
And if real love is what you want  
Then you gotta come and get me on...

Every day, every night (ohohoh)  
I long to have near me all the time (All the time)  
Give me a chance to give you my love (Give you my love)  
Everything will be all right  
But you gotta keep me satisfied (yeeeah)

Turn off the lights and unplug the phone  
Boomin' O'Jays as we get it on  
Girl, you know, that I've been waiting patiently (patiently)  
I've been imaging thangs

That we can do  
You just gotta give me a chance  
To make sweet love, make sweet love to you.

Break it down
