

# No Interruptions

Donell Jones

You know what I want  
You know what I need  
Come on and do me right, tonight  
Girl there's so many things I want to do to you

Lay your body down let me take control of you  
Do the things that lovers do, tonight  
You better be prepared to stay  
Cause you ain't leaving til' the next day  
It's gonna be non-stop loving all night  
I'll make you feel all right

You know what I want to do tonight, work your body inside  
I, don't want no interruptions

Baby don't be scared, let me kiss your  
body everywhere  
pleasure is the thing that I want to give  
to you  
Close your eyes and get ready  
It's gonna be non-stop loving all night  
I'll make you feel all right
