

# Put Me Down

Donell Jones

If I lace you, would you lace me back  
If I blaze you, would you blaze me back  
Spending big faces on the things you like  
When ya gonna put me down

If I ride for you, die for you  
If I floss at any cost for you  
Shorty, all I want to know from you  
Is when ya gonna put me down

First time I saw you, I was breathless  
Looking flawless, fifty on the necklace  
And I had to add you to my guest list  
Let you pass, I had to put it down  
We sipped and kicked a little convo'  
It's time to head back to the condo  
And I know what we both came here for  
Let me know what you're feeling now

Do you want to open up and show me your love  
Stop playing around and putting me down  
Stop holding back, you gotta react  
When ya gonna hold me down

You're perking, plus we're working  
All this flirting got me hurting  
When you know I don't deserve this girl  
Why ya gonna hold me down

Shorty I'm not trying to put a rush on you  
Can't keep leaving me with my love on blue  
Nobody's here, we better make our move  
I want to get into you

You won't have to floss, I want to cop that  
Fronting on my love, now shorty stop that  
What's it gonna be  
When are we gonna put it down  
I need to know right now

Do you want to open up and show me your love  
Stop playing around and putting me down  
Stop holding back, you gotta react  
When ya gonna hold me down

On the top floor in the president's suite  
Hit the tinted windows in the back of my jeep  
Or your friend's house on the living room couch  
If you let me hit it, I'ma blaze it out

Won't you open up, let me come on in  
And I'll never stop, we can do it again  
Cause you take it right where I want to be  
You got me in ecstasy

I want to know  
I gotta know when you're gonna let me see it

When you goin' let me hit it  
'cause girl you know I'm gonna get it

I want to know  
I gotta know when you're gonna let me see it  
When you goin' let me hit it  
'cause girl you know I'm gonna get it

I want to know  
I gotta know when you're gonna let me see it  
When you goin' let me hit it  
Cause girl you know I'm gonna get it

I gotta know  
If you're spending my dough  
I gotta know  
Spending my dough
