

Look at the world
Can you feel the
wind stop breathing?
The empty streets
In my window no one stays

Cuz I can't give myself away
So turn me on and
drive me to waist
You can't hire me today
I feel like burning again

Keep up the work
In my window no one's hurt
The clouds look strange
In my window no one stays

Cuz I can't give myself away
So turn me on and
drive me to waist
You can't hire me today
I feel like burning again

Cuz I can't give myself the days
The days we had,
people, they change
I guess I'll still remain the same
I feel like burning again

Cuz I can't give myself away
So turn me on and
drive me to waist
You can't hire me today
I feel like burning again

Cuz I can't give myself the days
The days we had,
people, they change
I guess I'll still remain the same
I feel like burning again
