

# How Close You Came To Being Gone

Donna Fargo

When I think how close you came to being gone

A friend of mine is going through the same thing I did  
with you

She's lost her man and must go on alone  
And she don't know if he'll come back again  
And I tremble cause I know how she feels  
When I think how close you came to being gone

And I tell her that I turned my face to Jesus  
And said let Thy will be done  
But if you know anyway you're keepin' him Lord please  
show me one  
It scares me half to death to think of living life alone  
When I think how close you came to being gone

The reasons were just about the same day after day she  
not can complain  
And she knows she chosed him the way from home  
And now she begs him just like I begged you  
And she cries and asks me what can she do  
And I think how close you came to being gone

And I tell it that I turned my face to Jesus...  
When I think how close you came to being gone
