

Sing Sing Sing

Donna Fargo

Clap your hands sing along join together in this love song
Open up your heart and mind and sing sing sing

It ain't too complicated it won't hurt you one bit
In fact it'll make you feel a whole lot better if you let it
Let the good life take over you don't worry about a thing
Just open up your heart and mind and sing sing sing
Clap your hands sing along join together in this love song
Lift your voices to the sky thank God you're alive
And set your spirit free brother sing sing sing

I used to take my grandma to an old tent-meeting church
Where they weren't afraid to tell you that you must be born aga
in
Shouting glory hallelujah praise the Lord I am saved
Let's all join together and let's sing sing sing
Clap your hands sing along...
Clap your hands sing along...
Clap your hands sing along...
Clap your hands sing along...
